

PADI SPECIALTY - PEAK PERFORMANCE BUOYANCY

The purpose of the PADI Peak Performance Buoyancy Specialty class is to polish a diver's buoyancy control beyond the Open Water Diver Level. The goal of PADI Peak Performance Buoyancy training is to enhance the student diver's buoyancy control abilities through knowledge development and practical skills practice.

Upon completion you will earn the PADI Peak Performance Buoyancy Specialty certification. This class counts toward the Master SCUBA Diver rating. Master SCUBA Diver is the highest non-instructional classification in the PADI system of diver education. For this level of achievement you must have 50 logged dives and hold PADI Rescue Diver certification along with five PADI Specialties.
