

PADI SPECIALTY - ENRICHED AIR DIVER

The PADI Nitrox/Enriched Air Specialty Class keeps you where you want to be ...underwater!

The PADI Enriched Air Diver class (Nitrox) is designed to teach students how to obtain enriched air, how to safely plan enriched air dives, equipment considerations, and analysis and safety precautions for enriched air divers.

Upon completion you will earn the PADI Enriched Air Specialty Class certification. This class counts toward the Master SCUBA Diver rating. Master SCUBA Diver is the highest non-instructional classification in the PADI system of diver education. For this level of achievement you must have 50 logged dives and hold PADI Rescue Diver certification along with five PADI Specialties.

Enriched Air or Nitrox saves you time by allowing you to:

- Stay underwater longer
- Get back into the water sooner
- Get your certification while simultaneously completing dives with other PADI classes
- Plus, you may feel less tired while diving with Enriched Air

Class Includes:

- PADI Enriched Air Manual, DVD & Personal Instruction
- Certification Photo
- Certification Processing

Pre-requisite: PADI Open Water Diver certification or equivalent

Minimum Age: 15

Class Fee: \$169.00

Class Schedule: For most current schedule, contact the shop or visit www.AirDownThere.com

There are no dives required to complete this class!
