

PADI SPECIALTY - SEARCH AND RECOVERY

This specialty class is designed to be a safe, supervised introduction to Search & Recovery diving. It consists of 4 open water dives and covers:

1. Planning, organization, procedures, techniques, problems and hazards of search and recovery diving
2. Limited-visibility diving & underwater navigation techniques
3. Proper techniques and safety considerations for object location, including the use of various search patterns, lines and reels
4. Proper techniques and safety considerations for recovery of objects using various lifting devices

Upon completion you will earn the PADI Search & Recovery Diver certification. This class counts toward the Master SCUBA Diver rating. Master SCUBA Diver is the highest non-instructional classification in the PADI system of diver education. For this level of achievement you must have 50 logged dives and hold PADI Rescue Diver certification along with five PADI Specialties.

Class Includes:

- PADI Search & Recovery Manual, Video & Log Insert
- Certification Processing
- Certification Photo
- Air Fills

Pre-requisite: PADI Adventures in Diving (AOW) certification or equivalent

Minimum Age: 12

Class Fee: \$149

Class Schedule: For the most current schedule, contact the shop or visit www.AirDownThere.com

SCUBA Equipment is NOT included, but may be rented at HALF PRICE.
